Kinesis Advantage & Advantage Pro

Hypertec Accessories

USB Contoured Keyboard™ Family - A more Comfortable & Productive Design...

The Kinesis® *Contoured Keyboard* family is based on a unique, patented design that minimizes the pain and strain typists experience from heavy use of conventional computer keyboards. Yet productivity is greater than with any other keyboard, leading to its popularity with intensive typists everywhere.

This ergonomic design resulted from almost two years of research and testing and has proven itself in more than ten years of commercial use. Kinesis contoured keyboards are prescribed by physicians and placed by therapists dealing with keyboard-related overuse injuries.
